Learning Activities Sequence

KWL Chart: Have each student create a 3-column KWL chart in their notebooks or a sheet of paper:

<table>
<thead>
<tr>
<th>Cuban Club</th>
<th>What I Know</th>
<th>What I Want to Know</th>
<th>What I Have Learned</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

First, have students fill in the K column with things they know about the Cuban Club. Ask for volunteers to share their responses. Next, have students complete the W column with what they want to know. Again, have students share what they have written down. Tell students they will continue to fill in the chart as the lesson progresses.

Videos: Assign students to 12 groups. Have each group watch a short video from the series, “Tampa Cuban History” (http://www.youtube.com/CubanClubTampa). If your school district blocks access to youtube.com, you can download the videos before class by using this tool: http://youtubedownload.altervista.org. While viewing the videos, have
students make notes on their KWL charts. The 12 videos are as follows:

- Station 1: José Martí Steps
- Station 2: Bust of José Martí
- Station 3: Cornerstone of Building
- Station 4: Second Floor Foyer
- Station 5: Lobby Bar
- Station 6: Theatre
- Station 7: Stained Glass Window
- Station 8: Salon de Damas
- Station 9: Grand Ballroom
- Station 10: The Cantina
- Station 11: The Clinic
- Station 12: The Patio

You may need to modify the size of the groups, number of groups, or how many parts they will be assigned depending on your class size.

**Group Project:** In their groups, students will create a classroom museum on the Cuban Club of Ybor City. Each group will be creating a booth or table on their assigned topics. Some recommendations for the requirements of each group are to include: important facts, pictures, maps, artefacts, realia, video segments, music, and documents. Once assembled, the displays can be organized as a “walking gallery” so that students can learn from each other’s projects.

**Closure:** Students will complete the KWL+ charts. Have students list what they have learned in the L column and lastly, have the students take the information and transform it into a short summary (3-4 sentences).
