SCHOOL OF INFORMATION STUDIES

FLORIDA STATE UNIVERSITY

HOMECOMING
OCTOBER 16, 1999

PH.D. PROGRAM RECOGNITION
1969-1999
In 1969, when the School of Library Sciences began its Ph.D. degree program, the anticipation must have been palpable.

Today, with more than 160 doctoral graduates and 50 enrolled doctoral students, the promise of the designers of the original program has been realized in many fold. You can count among yourselves university presidents, university and public librarians, school library media supervisors, corporate and not-for-profit information specialists, and library and information studies educators, including not a few deans. Our graduates have been able to forge excellent careers and your contribution to information studies knowledge creation and service and been many and important.

Congratulations to you all and congratulations to FSU's School of Information Studies faculty for providing the support and environment that led to each of you reaching your goal or attaining the Ph.D.

Jane Robbins
Dean
