Supplemental Table 1. Means and Standard Deviation Values for Questionnaire Measurement of Psychological Reactance (QMPR) Items for Study Population (N=118)

Item Number	Item Description	Mean	SD
1	I react strongly to duties and regulations	3.08	1.47
2	I get a kick out of contradicting others	2.05	1.08
3	I seldom behave according to others' standards	2.45	1.33
4	When told not to do something, my reaction is, "Now I'll do it for sure"	2.13	1.20
5	The thought of being dependent on others is unpleasant to me	3.80	1.52
6	When given advice, I take it more like a demand	2.34	0.96
7	To make free and independent decisions is more important to me than it is to most people	3.41	1.48
8	It makes me angry when someone points out things which are obvious to me	3.03	1.22
9	Often I lose enthusiasm for doing something just because others expect me to do it	2.72	1.35
10	I get very irritated when someone tries to interfere with my freedom to make decision	3.49	1.54
11	Suggestions and advice often make me do the opposite	2.31	1.12
12	I succeed in doing things well if I do them	3.36	1.39
13	I resist attempts of others to influence me	2.97	1.32
14	I get annoyed when someone else is put up as an example for me	2.71	1.45
15	When I'm pushed to do something I often tell myself, "For sure I won't do it"	2.58	1.40
16	It pleases me when I see how others disobey social norms and obligations	2.00	1.10
17	Excessive praise makes me suspicious	2.54	1.27
18	I get very irritated when somebody tells me what I must do or not do	3.17	1.53
