Instructional Objectives

Students will:
- analyze a photograph of immigrants working in an Ybor City cigar factory;
- identify the causes of migration to Ybor City at the turn of the 20\textsuperscript{th} century;
- organize main ideas and supporting details of Ybor City history.

Learning Activities Sequence

Photo Analysis (whole class activity): Distribute a copy of the Photo Analysis Worksheet (HO1) to each student. Lead students in an analysis of the image of cigar workers in a Ybor City cigar factory (Image 1) by doing the following:

Step 1
Display the image of Image 1 (workers in a Ybor City cigar factory) for students to view for two minutes. Ask: What is your overall impression of the photograph? Record your thoughts on the space provided on your Worksheet.
Say: Now, we are going to look closely at the image for details. Cover up the photograph, exposing one quadrant at a time and magnifying the image if possible. As you ask the following questions, students are to record details in the 3-column chart on their Photo Analysis Worksheet:
- How many people do you see in the photo?
- What are they wearing?
- What gender are they?
- How old do they seem to be?
- What are the people doing?
- What details do you notice about the building?
- When do you think this photo was taken?
- Where do you think it was taken?

Step 2
Read the instructions for Step 2, defining and clarifying the meanings of “inference” and “infer” as needed. Ask students to write their inferences in the space provided. After two minutes have passed, ask for volunteers to share their responses.

Step 3
Read the instructions for Step 3, allowing students a few minutes to record their questions on their Photo Analysis Worksheet. After two minutes have passed, ask for volunteers to share their responses.

**Power Thinking:** Place students in groups of 4 and give each student a copy of “Latin Entrepreneurs and the Birth of Ybor City” (HO2). Students will use the power thinking reading strategy (see HO3 for a detailed explanation of this strategy), an excellent strategy for organizing information. In their groups, students can take turns reading the article, underlining/highlighting important information as read (students may also be directed to make margin notes of what they are reading to facilitate putting the information into power notes). A list of possible main ideas for power 1’s can be found in Handout 4 (HO4).

**Create a Graphic Organizer:** Each student will create a graphic organizer using their power notes (see HO5 for a sample).

**Closure:**
An Exit Ticket is a 5-minute, end-of-class exercise that can be an efficient way to check for comprehension and gather feedback from students. They can provide an opportunity to determine students’:
- understanding of key concepts
- remaining questions
- attitude towards the content or instructional methodology
For this lesson, the Exit Ticket (HO6) question is: **Why do you think it is important to preserve the history of Ybor City?**

**Evaluation**
**Postcard:** Have students imagine they are one of the immigrants living in Ybor City during its Cigar City days. Create a post card that will be sent to a family or friend still in Cuba. Students will need to include the following:
- picture or drawing on the front of the post card in color
- at least four facts about Ybor City written within the body of the message
- students may choose to create the postcard digitally or manually
You may want to have template or example for students.
