*F*or nearly a year, 50 animatronic cameras disguised as realistic life-size penguins infiltrated penguin colonies to record the tough challenges penguins face from the moment they emerge from the sea to raising their chicks and finally returning to the water. The intimate, emotional and sometimes amusing behavior of nature’s most devoted parents bringing up their young against the most extraordinary odds is revealed as never before. Airing Thursday, October 30, 8-11 p.m.
