This Senate General Meeting Minutes is brought to you for free and open access by the Student Government at Scholar Commons. It has been accepted for inclusion in Legislative Branch Publications by an authorized administrator of Scholar Commons. For more information, please contact scholarcommons@usf.edu.
Rodriquez: I now call this meeting of the senate to order on Tuesday June 10 2014 at 6:08pm. The first order on the agenda is call to order and the pledge of allegiance. Senator Cimino

Senators: The Pledge of Allegiance.

Rodriquez: Okay the next item on the agenda is the first roll call. I don’t think it’s sensing the receiver. Okay. Click one if you’re present please. Is that everyone? We have a count of 23 people present today. Moving on with the agenda. Additions/deletions and or clarification to the orders of the day.

Johnson: Senator Johnson Arts and sciences. I want to move to shift the resolution....before confirmations.

Rodriquez: Are there any objections to senator Johnson’s motion?

Johnson: Motion to add SBA 002 to the agenda.

Rodri: Any objections? Seeing none SB A 55-002 has been added to the agenda.

Hilba: Motion to delay the minutes.

Rodriquez: Any objections to postponing the agenda?

Morgan: It’s good to see everybody. This is Chris Leary. Many of you probably have the qualification to be involved in this program. And fun fact chris leary...he’s a graduate here at USf and he will be interning here at student government this summer.

Leary: How are yall doing. I was having conversations with Jessica before we started and I’m fascinated by the first five minutes before we started. Alt’s also the first time I’ve done the pledge of allegiance standing up in a class room setting since the 5th grade. And the reason that I am talking to you about this today because it’s something you guys are already pursuing even though you don’t know you are. Some of you might be and you don’t even know it. So the certified leader program is a self paced leadership program. Umm there is also involvement in service opportunities as well as you are requied to what we call make meaning of that experience. So the flyers that are going around give you a little bit of a brief preview of this program. Umm the rest of you all if you’re not in a leadership studies class, as sg senators I can assure you, you work...is that a no? No body said anything. If you have taken a leadership class and you’re in here you are 2/3 done with the program. It’s something that a lot of students don’t realize they could do even though they are already doing it. So you can start tomorrow and by the end of the semester...you can be like Gustavo here...and it’s a really great opportunity and of course it looks great on a resume. You are a certified student leader at the center on the campus. And we also have other seminars and services through the center that you can get involved in. I’m downstairs I’m on the very first floor. Do you have any questions before I leave today.
Romero: So you said that if you have taken the leadership course you are 1/3 of the way down. Is there a way you can teach yourself.

Chris Leary: Not that you don’t know theory and not that you don't qualify to teach yourself theory...that are essential to that program. So in a short answer no. Due to scheduling, tuition and fees, they are changing....which I mean it’s based off 7 habits of highly effective leaders. SO that also can satisfy. But that’s only if you cant take a leadership course

Cocco: So how do you define a student leader.

Chris Leary: I think for me a student leader is someone who is willing to learn and grow. They just need to sharpen those skills they need to learn what those skills are. They need to understand what they could bring to the program. To me leadership is about motivating and encouraging people around you to get involved. But me personally as someone who really values relationships and collaborations, and working with others, that would be my biggest thing. I think you are preparing me for an interview.

Cocco: Welcome to SG.

Leary: Keep it going yall do great great things. SO thank yall have a great night. Were there any flyers left?

Morgan: Yes I have them

Ulloa: Yeah last week in our committee we actually went over practice travel grants. We also elected a new Vice Chair so congrualations to senator Tremino. And that’s pretty much all we did.

Johnson: Our committee meeting yesterday finally passed our first budget request.....and it was really productive. We also went through 2 budget transfer requests for Judicial branch and for bulls radio which was great. So it’s going great so far.

Truong: so last week we went over consititons, the templates that we have so all the committee members know about that. We don’t have Jec this week, so just so you all know bout that. And we elected a Vice Chair .

Malanga: Romantic Comedies. Ugh in addition we got through 2 bills that we will be sing tonight. First one is confirmation procedures which we will be talking about later. And Lasac

Gordon: That umm we’re going tostart getting the application out. This we...and I have a sign up sheet for any senators that want to participate on this event. Other than that nothing else really went on but thank you.

Aziz: So yeah sign up for the Tent Day you’ll get positive points. Senators that attended have accumulated a lot of positive points. And get more points. Other than that just to recap some things that we’ve been working on for the Senator Treat, Andy has been planning that. And in terms of logos we’ve approved new logos for ....so we’re drafting that legislation and we will have a style book. SO that’s one.
Int terms on Lakeland the executive branch and us work together...and we’re also getting new computers in the SG office. Umm working on digitizing documents so that’s what we’re trying to do with the paperwork that we have. And one thing recently we had today is we had a meetin g with Dr. Miller...like checking your roster and stuff, so just to keep you guys posted. So pretty much going to start in the fall semester. So if you have friends. Roster and attendance and all that stuff. And other than that we have a new senator of the month for themonth of May so congratulations to Mr. Malanga. You’ll be getting your certificate next senate with a gift card for barnes and noble. And if there is more than one person we can draw if out of a hat and we can decide. Other than that that’

Rodriquez: Umm aziz and I have also been working on hiring two new transcribers for the senate. Off campus housing website...last week I traveled to UCF with President Cocco and attended the florida student association meeting. And president Cocco. I also sat in on the org sync meeting with MS. Miller and other people from SG. Umm I’ve also met with the OLSO and we got the contract from the buccaneers and we sent it to the legal office at USF. And the last thing and this is important so everyone please pay attention. The july 8th Senate meeting...

Cocco: Oh no.

Rodriq: And also as of right now we don’t have a place to do it. Any questions for anyone? I see no questions so we will move down the agenda.

Cocco: Word. Alright, Senate. Yeah we’ll talk Andy. Mark Harlann was supposed to come that day. We’ll talk. Maybe we can do it at Athletics. We can’t? Oh we’ll figure it out. Alright for the Exec branch report, our transition team has been working very hard. Danny Christopher has been working on some minutes. And we met some good USF people, some USF Alums that were willing to participate in our Legal Aid network to the students. And he’s also been revising statutes and attending orientations. Berk has been hiring, he’s our hiring guru. Today he wrapped up Solicitor general and...ugh Alex Johnson he’s been working on resolutions. He’s written the resolutions you are going to see today. Maggie has been. Maggie and Joe have been working on orientation, on the website and on street team.

Maggie: I think it was 96.

Cocco: Glow in the park is July 11th so we will be providing busses to students to the river side park. So that’s good. Our “Our” shirts came in, they are on sale at the bookstore for $5. Forbes our CFO appointed has been working on purchasing orders....and all that good stuff. He’s working on our interim budget that we are going to present to Johnsons’ committee next Thursday. And also he will be working with the office of national scholarships. We please that you have it 2 weeks before the deadline you are looking to have the event. And he’s helping out the senate with the retreat shirts, and he did the orientation video. Okay today Andy and I and Aziz met with Mark Walsh. We got our College of business in St. Pete funded. In state tuition for veterans, in state tuition of undocumented immigrants. So that’s good news for higher ed. We’re also going to be working with out lobbyist...build relationships with their people. Kind of like a strategic plan for where we want to see SG next year. To work with athletics to get them more engaged over here on this side of campus. County Commissioner talking to her tomorrow with getting more students involved in County Commissioner. And Thursday Andy myself and a few
others are going to be going to thank the legislature at Camels to thank the legislators for being so kind to our system. National Campus Leaders Campus...so one thing that I’m going to be working on sexual assault awareness week. One in 5 people are sexually assaulted throughout the time here on campus and that needs to stop. If we lose accreditation that is not good. Charles Lockman from Ohio State and Yale. Charles Adams, honors college dean, University of Arkansas. And we’re discussing new ideas for our football games. Ugh met with Manny Lopez with administrative services and he wanted me to update you guys with ALN...they are going to be fixing the traffic pattern. And I’ll also going to be talking to him to look at more students spaces for students.

Rodri: Any questions for president Cocco.

Ulloa:

Cocco: So for the Florida Student Association for those of you don’t know was founded in the state in 1996. And so I was unanimously selected to be the number 2 person to represent USF, the Chair is ____ he’s from FSU. And we will be working on hopefully creating a sales tax, eliminating a sales tax...so we can save the extra 20 bucks. So that’s one issue. And if you have any other issues you guys want to run by just let me know and we can talk more about it.

Rodri: Any more questions for President Cocco?

Hamed? Umm like Mr. Johnson said we have a budget transfer go through...juSenEx is meeting...umm Associate Justice applications open up this Friday. The final date for our Judicial senate will be June 27th. Umm if you can’t make it don’t feel bad. Umm this Friday I’m meeting with the Chair of Ethics and Integrity committee with President Cocco. What the training for the new justices is going to look like for this year. Are there any questions.

Rodri: Thank you Mr. Hammed.

Rodriq:

Michalski: is it okay if I come down? Sorry if this takes a few minutes. So ladies and gentleman of the senate thank you for your time. Tonight you will begin the process of appointing...and someone who is regularly...Umm tonight Mr. Berkowitz will be presented...I believe this is the single most important appointment of the term. I did some of the graphic design and the web design...without fully thinking through a situation. Mr. White did does a good job of balancing out Mr. Coccos personality. While also being...sometimes that means telling the president no. I believe in fair processes. And in...the fact that rumors were floating out around. I also use to be the acting CFO for the transition team because the CFO from the other team...Forbes for this position. I knew my chances...sure enough Mr. Forbes was appointed. Just in general of the four appointees...Mr. Johnson’s name was the only name I didn’t hear...Who is the assistant director of publications and...Mr. Berkowitz has...Assistant director. We are a team, and also here with me are the..Maggie and I would collectively cover communication and...overseeing the SG website...and the summer B event of campus week of welcome event. An email thread...along with Ms. Haul and both of us should know what’s going to...If I wanted you to work on
the job post on....If the website were to break and the orientation supplies were to go missing I would be...Mr. Berkowitz was reviewing SG postings for job...he is in Engineering why would he apply for that position. Because I was an engineering student. Or a former member of the executive branch I would be disappointed. Or if he might sit on most of the...I currently sit on the...and over the past year in the...performed 10 airport interviews. WE submitted a process....as of last month the provost said he xtended the job offer to non eof the ...over the next year myself along with the committee will be replaying. I believe Mr. Berkowitz ..i strongly believe that believe.

Truong: Umm can I see the documents....or because they are your’s

Aziz: My question is, is this a personal situation you have with your emplowyer...it’s a you vs. them thing or something you should handle with SGATO and the grievance.

Michalski: I don’t feel suited to go into the orders of the other positions. I heard three of their names before they ...and I think it’s a disadvantage for some of the appointees. If this is a valid apointments.

Hasan: Do you you by any proof can say that whoever..

Michalskuy: I can’t because I don’t have access to all the job applications.

Tuong: So these allegations are you saying are they against Cocco or are you saying them about the candidates and the appointees themselves.

Michalsky: Before this usually happens around the time the interview...

Truong: So you are sying that it’s against the ...

Michalsky: Because from what I see these are not actually the most qualified candidates

Tuong:

Michalsky: It is more of a personnel issue, I do believe...because before he was appointed...because once as he’s appointed...so based on what I see I think there are indicators that he might not be the most qualified for this

Johnson: You have a personal stake in...what is yoiur two sentence summary is in the culture of the office.

MIchalsky: I think each applicant and each applicant pool. Umm even going through the CFO process. I was asked my Mr. Cocco If I was applying for any

Johnson:

Michalsky: Pretty much I decided I would not be applying for any other positions in the Executive Branch. I am in this to make sure that student government is moving in the right .

Rodriq: I have free stress gavels in the office if any of you want them.
Rodriq: The first thing on the agenda... quiet please. Is a joint resolution on first reading.

Aziz: Alright so Mr. Johnson was kind enough to write a resolution. Umm can we get a motion to read?

Ulloa: Motion to enter reading of ()

Aziz:

Rodri: Any objections.

Morgan: Can you guys speak up please for the people at the back here.

Johnson: Sure. In Memory of Mary Lou (Reads the Resolution: Insert here).

Ulloa: Motion to pass by acclamation.

Rodri: Any objections to passing JB R 003 by acclamation? The resolution passes..

Cocco: Today we have joining us the step daughter of Mary Lou Hartmann

Judy Grilow, and Christine Summerville.

Stepdaughters: Two years before the university started. She had the vision to understand what this university was to become. They talked about the universities being a research based university but there was no library. And she had a job of what books do we get, what periodicals do we subscribe to. She had to have a vision of what all the different parts the university needed. And she never quit with just working in the library. And by the way the library started in a little ...and when you were issued a research project you didn’t have much to draw from but it was the best to do at the time.

Yeah I would just like to add that Judy here was part of the charter faculty, ugh who was also part of the Charter Faculty, they were associated with the university until mary lou retired in 91’. Umm she was incredibly humble. Many of her accomplishments are only now being known to us as we see people memorialize her. She actually voluntarily stepped down from a directorship and continued to work for the library for another 3 years. That’s a huge asset to have that ability to step down and work then as a servant and not as a leader. Thank you all.

[Clapping]

Judy: I would just like to say I typed the first constitution and seeing how you operate today and knowing how we operate...what a mature operation you have.

Cocco: Thank you so much we appreciate you Ms. Judy. Okay, I’ll walk them out.

Rodriquez:

Johnson: I move to enter first reading of JB R 55-002.

Rodriquez: Any objections? Seeing none, Mr. Aziz take it away.
Aziz: So Mr. Johnson was kind enough again to draft a resolution. (Reads JB R 55-002 : Insert here).

Rodriquez: Do I see anyh motions?
Sulloa: Motion to pass by acclamation.

Rodriquez: Any objections, seeing none. Do I see any motions...oh never mind. Okay moving on with the agenda we will start confirmatinos. The first confirmation we will have is for Chief financial officer for Jeremiah Ford.

Cocco: If I could before I start I just want to address some of the concerns ...

Morgan: NO I hope not. You know I certainly appreciate any opinions ...myself and Gary though have sat in on all the hiring procedures that you have all seen tonight. As for the allegations that...most of the people who were selected...so umm you know I've not been privue to that. We've actually interviewed more non-student government people than we did in the pass. Or if you have concerns not just...if you have concerns about what the executive branch has been doing. From my observation it has been a fair process.

Andy....i do mind

Cocco:you will The process has been fair. We've interviewed over 20 people for the position and we pick the ones that are more qualified for that position and they were...why there may be some sour feelings. With Andy serving on the hiring committee. So if you guys have any individual concerns that you want to talk to me about I will be happy to meet on ...

Berkoqitz: If you are...if you have experience with the process don’t hold it against him...

Cocco It’s not your fault.

Berkowitz: I don’t want the ...

Truong: I also just want to remind all of you that all of these four went through JEC and passed.

Aziz: How many people were interviewed for this positions.

Berk: 39 applied and 5 were interviewed.

Rodriq: It was sent to everyone in the email that I sent out on Friday.

Forbes: I am Jeremiah Forbes as you can see on the screen. I’m a senior here at USF...pretty much my idea into...CPA firm, I have other ideas of having a restaurant, maybe having a Non-For Profit. My family is Turks and Cacos islands. If I can go back and start a non for profit and have kids learn to play instruct...CPA is my think and my goal right now. I’m a 5th year here. Couple words to describe myself, Positive, Dedicated, Sense of Humor and Self-Aware. It’s simple to me, that makes me happy because it puts things into perspective...so little things like that put...there is somebody in my...whatever I get my hands on...so much, it can be serious so it’s good to have a sense of humor. Hey Jeremiah you think tha...I like to always evaluate myself and see where I can personally grow. From my understanding...so
what I did was join the A&S Business office. Umm through that I saw the opportunity to want to be CFO because I've been around it... how to improve the position and how to improve the process on the frontline. A&S business office, I've been there since 2012. Students have a lot of responsibility. A lot of the work has been done by students. The little things that a lot of people may not get a chance of... so that's my front line. I was involved in treasurer. Areas of focus. One thing I want to work on is efficiency. I really want to work on that so I can really get a smooth transition... kind of know what we need when they bring that up to me. I think a lot of students just don't understand...

Ulloa: Motion to enter 10 minutes question and answer period with a 1 minute speaking time.

Rodríguez: Pro Tempore Aziz.

Aziz: So since appointed what have been your things that you have been doing?

Jeremiah: Umm so I can mention everything... the interim budget that was a big thing, also promotional items, a lot of things I've been dealing with is purchasing... and getting up to speed.

Rodriguez: One tap at 30 seconds, 2 taps at 15 and I'll gavel you out once it's done.

Truong:

Jeremiah: Anyone in the office is not afraid to say no. One of the things I like to follow since I'm going into the audit career wise... that I can to and actually say you... trusting the next person to give an objective opinion.

Johnson: Excellent presentation... how well did you know anyone on the executive branch.

Aziz: Interjection: The questions you ask the questions

Johnson: I'm personally concerned that allegations about dishonesty of the interview process... check and balance amongst people... comfort between...

Jeremiah: Can you ask me one more time to make sure what

Aziz: I can summarize. Pretty much an ethics question.

Forbes: I'll just talk. Based on my allegations, my interest of the position... my talked quite a bit... I talked about many people... umm when it comes to being ethical... as far as I know... all I did was talk about the position interview for the position and was appointed.

Schifline: What are your obligations here for the time here.

Forbes: I left A&S business office already once HR and stuff got situated. I got 2 classes on Monday night and Tuesday night. My fraternity. And I like to have fun... intramurals...

Ulloa: I have a question and possible a follow up. How well do you know Title 8.

Forbes: Trophies are they going over $150 per the semester...
Ulloa: Based on the title 8 and working on the A&S Business office, do you have any changes...

Forbes: The biggest thing I would like to see...a simplified version and they don't read...maybe we can make some kind of cheat sheet something like that for title 8. Auditing of organizations if we can clarify how that process will go.

Aziz: So could you give us...first of all in Executive branch you have a lot of budgets to deal with. How do you keep up with multiple assignments and tasks with a tight deadline.

Forbes: I can give you so many more because we are always giving...I think I have....

Rodr: Any more questions for mr. forbes.

Ulloa: End question and answering and enter discussion.

Rodr: Can you give a forum for the discussion.

Ulloa: 10 minute moderated caucus and one minute speaking time.

Forbes. Thank you guys and go bulls.

Rodri: Since the moiton was made from Senator Ulloa you will have the floor first.

Ulloa: I have worked with ASBO...they go through a little more deeply than we do. So I think that coming from a business like that. I feel like he is heavily qualified. He does have a business schedule.

Aziz: He was keen on following the rules. IN terms of like work and following rules and based on the business office when I’ve seen him, he seems like a good worker. Or things that we need to do so interms of doing the job he seems to be doing it.

Johnson: I move to go into voting procedures concerning the appointment of Chief financial officer.

Rodri: Seeing none, we will now enter voting procedures. Okay please click one if you vote yes on the confirmation of Mr. Jeremiah Forbes, click two if you vote no and click three is you abstain> Si that everyone? Yep okay. With a vote of 23:0:1 Jeremiah Forbes is confirmed as our CFO. Hold on give me one second.

Rodriquez and Jeremiah Forbes says the Oath {Insert Oath Here}

Rodriquez: CONgradulations. Moving on we have the ocnfirmaiton of the Chief of Staff Gregory Berkowitz.

Cocco: Pretty much needs no introduction. Any questions regarding the position. How many people applied? 38 people applied, 5 were interviewed. About me I graduated at USF May 2013 with a minor leadership. And most classes are at night since it’s graduate school. Last year Secretary of Advancement....two great presidents, two different styles. Other involvements were....and... Secretary of
University Advancement of last year. I actually went to the University Wide committees...because before I
kind of came in there were a lot of complaints...and there were all these questions about them. Umm
keeping them involved and educating them and you know keeping the connection there. Umm then I
was also one of the founders of the Marschall Center Advisory Board. Suchit...he just really wanted the
ovice of the students to be here....umm I was in charge of planning it, something kind of...including the
four last year in that horrific accident. I was a big part of that committee and try to make it happen with
senator brown and all the judicial people. Chief of Staff, so I've done some things already in my
appointed time. The plan is to have all the executive branch positions and the core to have....umm so
we're really working hard on that. People fill out a request they turn in a form....just to kind of increase
accountability. And lastly tweaking cabinet meetings....and they can kind of talk to departments. And
during the off weeks I just want to meet with....Chief for Staff.... Umm there are two...actually when I got
the first...Special education...I was with a teacher who...students who couldn't quite...the teacher called
them stupid... so I actually ...I switched to international....but my so so I stod up.

Johnson: I move to enter a 10 minute moderated caucus. With 1 minute speaking time.

Rodri: any objections? Okay since you made th emotion.

Johnson: Please enlighten us about the second time.

Berkowitz: Hazing took place, another University hazed our guys. I felt that it ws not the right way to
handle it. So as...so my nationals were not happy with me, the called me the blackmailed me and they
finally removed ...so don’t question my integrity I guess is kind of the motto I want to say tonight.

Turong: How would you handle a unethical ...oh I’m thinking. No I’m not just silent I’m thinking. You
want to go on?

Aziz: I’ll ask her same question with an example. Let's say President Cocco wanted you to buy horses for
all the executive cabinet.

Berk: Everything I do is for the students, even though I am not student body president. It wasn’t really
till I got involved with ....even though I’m a little shaky now. I’d tell him no.

Ulloa: as someone whose been in SG for I think it said like 3 years now.

Berk: Something that I’ve really done during hiring was email the people. Which you think it’s easy...it’s
not. Umm it doesn’t feel good. I do want to make a personal touch, I do want to be profesionaly. And
second thing I want to do is open office hours. But the Chief of Staff can make some hours...

Hiba: Umm in the past I’ve heard that Rhondell White has been taking responsibilities light...

Berk: Increaseing the CHIef of Staff from 25 to 30 ...I just don’t be to clocking over. So giving the 30 is a
really good plus. So talking about the agents I met with Bulls Radio.

Aziz: So as the Chief of Staff you have to dela with a lot of people. So in good situations and bad
situations what's your management style and conflict resolution side?
Berk: Just addressing the issue and not letting it dwindle because when you let it dwindle...so just addressing it when it comes up and being intuned with your staff.

Rodri: Do I see any motions.

Ulloa: If there are no more

Rodri: Any objections into ending the question answer period? Okay can you restate your second motion please.

Ulloa: 5 minute speaking period with 1 minute speaking time.

Rodri: Would anyone like to speak.

Semino: I was part of the inter fraternity council. I Actually signed the position to have him reinstated into his presidency. He stood for what was right, it is something that I know berkowtiz dones...

Rodri: Sweet. Anything else.

Seitz: I think not to minimize the feelings of uncertainty of some senators...I sat in on his JEC interview and I mean hwat you see is what you get with him. At the end of the day...if we...

Aziz: So umm I know greg through him position in the Executgive Branch....he could always be counted upon. He would always follow up and try to get them in gear. So interms of work ethic

Miller: Motion to exit discussion period and enter voting procedures.

Ulloa: I would like to..

Miller: I rescind.

Ulloa: I think it’s really important o have a chief of staff that represents the executive branch. And someone....was willing to tell you abut how he reported his own fraternity for hazing and stuff like that. Someone they could visit and really get to know our branch.

Rodri:

Johnson: Motion to end discussion and move into voting procreudres.

Rodriq: Any objections? Seeing none we will now enter voting procedures. Okay please click one if you vote yes, two if you vote no and three to abstain. Has everyone clicked in?

Lopez: No.

Rodri: Is that now everyone? Yes? W

Gluck: He’s a brother of my fraternity

Miller: Personal
Johnson: exactly the same sentiments of Senator Miller.

Rodriq: with a vote of 20:0:4. Mr. Berkowitz...

Berkowitz and Rodriguez [State the Oath: insert here]

Rodr: Congratulations. Okay moving down the agenda we now have attorney general, alexander Johnson.

Cocco: Alright, we interviewed 5 people and 23 applied. Any question regarding the psotion of AG?

Johnson: Hello everybody...I've applied for the attorney general position.

Rodri: Oh it might not be on.

Johnson: I want to give you a little bit of background about myself. And then I will summarize my ideas at the end. Go Bull Dogs. After that I attended the USF St. Pete, from the Fall 2012 till this recent spring. I’m a double major in criminology and Russian. Department of Druge enforcement. This summer I’m taking two online classes, one in summer A, one in summer B. I’m also and airforce ROTC student and I have one online class. Alright, Previous experience, I’m a florida notary public as of the summer 2013. So reviewing legal documents is nothing new to me. The second thing, I’m a prior chief justice for the SP campus. It is esentialy the legal opinion that has binding nature signede by 3 justices. I at the st. pete campus founded that last year. We did not have that last year....and then also before I was chief justice at the st. pete campus I also have prior experience. The vice chancellor...the St. Pete campus has Chancellor and Vice Chancellor. The new ideas. I think that we need to find different outlets to communicate...we need to find a way to be more sustainable. Compare the guiding documetns from other sg to courts ...we traveled to the UNF and started comparing guiding documents. And then also one thing I really want to do is expand the office of Legal Affairs... and then making sure they are also aware of it. Because that truthfully will be the best thing we can assist the students with. This concludes my presentation.

Schiflit: Motion to enter a 5 min discussion 1 minute answer.

Rodri: Any objections?

Schiflit:

Johnson: Well I think what would be a neat idea, maybe...the boxes where you can post things....once centralize location people would be more attracted to that, and at the same time it would be easier to find.

Hlba:Umm in the past taling to ...how would you feel if the situation came up if you have to try and impeach Mr. Cocco.

Johnson: As we go to the impeachment process, often times emotions get aroused...and our purpose here is to....not fight each other. And if it needs to happen it will happen.
Aziz: Since appointed what have you been doing?

Johnson: I’ve written a lot of resolutions, you’ve seen 2 today. In addition I’ve also been expanding the legal network. So networking with those legal professionals have been something that has been a big thing on my plate. Umm I’ve written….I’ve done a lot of document review. To see if there is anything they could….so that was kind of my biggest thing when I got here.

Rodri: Any more questions.

Antar: Motion to close question and answers and move into discussion period?

Rodri:

Antar: 5 minutes, 1 minute speaking times and I yield the time to speak to the chair.

Schiflit: I don’t know him too well but from what I see he attended my committee. ..and on top of that h...which I think will be a great benefit to have.

Ulloa: the first thing he really did...he asked do we put on the mailing list to go to the senate committee meetings. Umm second thing is that he knew that....i read through all of our statutes it’s not an easy ready.

Johnson: umm he’s awesome, quite simply put. He showed up at our committee, and had some excellent idea. Being a public notary when you’re in college is quite not heard of...let’s just go vote.

Hiba: Motion to proceed to voting.

Rodri: Any objections to closing voting and moving into voting procedures? Seeing none we will now do just that. Please click one if you vote yes, two if you vote no and three to abstain. Is that everyone? Yes?

With a vote of 22:0:1 Alexander Johnson is appointed as our new attorney general.

Johnson and Rodriquez say the oath [Insert the Oath here]

Rodriquez: Congratulations. Okay moving down the agenda.

Hiba: Before we begin I would like to bring something of attention of the Chair.

Rodriquez: I’ll look into changing.

Cocco: Up next we have our appointee for Chief Justice Sammy Hamed. He’s been with us for 2 years now. Umm we interviewed 5 people and 23 people applied. Any questions regarding the position?

Hamed: I’m studying political science with a minor in....made a lot of choices here at USF, by far the best choice I have made. I’m the president of the USF Mock Trial Team. I just recently became a USF ambassador. My Supreme Court experience. This was not my first senate. Served for about 6 months and once that administration ended...served for 11 months. Student Government INvovlement...if I skip
over something that catches your eye please feel free to ask me about it and I would be happy to talk about it. These kind of bigger looker guys from Sarasota came and talked to us. We helped them build up and from that both Sarasota and St. Pete were able to use our...this is where all three branches from all three campuses come together. Umm I hope to continue the tradition of chief justice. I served on the......i look forward to cutting that ribbon in the fall. Served as a judicial branch officer. So I have pretty good knowledge in terms of working with ASBO. New initiatives and ideas....so that way you have someone here for legal aid every single week. Just watching st. pete and srasotas court go....every senate at every other campus looks up to you guys. I want to implement the Parking Advisory Council, my goal for this I got this from UNF. I want President Genshaft to charge us as a committee. And I want to promote the academic integrity committee. I want to continue to promote that with the new chair of ....are there any questions.

Hiba: Motion to proceed to a session of question and answer....

Chifilt:

Hiba: I accept.

Rodri: any objections to 5 minutes 1 minute speaking time.

Hiba: How do you plan on reaching out to students especially in the parking appeal process

Hamed: Ugh in terms of this we created last year with the marketing ...marketing has been kind enough to give us....working with the executive branch and communications to go to...in which administrators...and what they can do.

Rodri: Any more questions.

Ulloa: As someone who has sat on the court for going on 3rd year, what kind of....

Hamed: Well when I got in here as a freshman I didn’t think parking appeals were going to be as tense that they were. Umm going forward in terms of what students have....but from my freshman year and sophomore year they do research from student spots and faculty spots. And more changes will be made once more voices you....

Aziz: Past projects.

Hamed: I will talk a little bit about that. We got the idea of the Honor Court from the UNF. So that they can be heard and decide on by that. Currently we have the conduct board and that only deals with the Conduct issues. Sit on the academic integrity review committee which is the honor court. Depending on...it’s two people from each court.

Hiba; With the knowledge that you have served on the surp
Hamed: I think the biggest skill that I’ve built while on the court...in order to judge fairly. I’ve been growing doing that I think in the past year...2 years. I hope to continue doing that and to guide other justices the same.

Ulloa

Rodri: Seeing none we are no longer in questioning hamed.

Ulloa: 10 minute moderated cucuas with 1 minute speaking time.

Ulloa: Well as someone who has been on the court for 2 years going onto their third year...I think that shows a lot to their character shows a lot to who they are. He was working on as a first year on a court I think is just phenomenal I think he will be a great addition to the court.

Rodri: Anyone else?

Hiba: MOTino to end discussion and proceed to voting.

Rodri: Any objections to closing discussion? Seeing none, can you just make another motion please.

Hiba; Motion to enter voting.

Rodri: Any objections to entering voting? Seeing no objections? Click one if you vote yes, two if you vote no and three if you abstain. Has everyone vote? With a vote of 19:2:3...

Bryan Buenaventura and Sammy Hammed [Say the oath: Insert here]

Rodri: Do I hear any motions.

Ulloa: Motion to enter the first reading.

Malanga: Needed to go before JEC and Senate. Ugh so if you can go through umm so what we did first was define which one...so we defined that as only directors and agencies...but basically the marketing departments and...304 in our statutes. Chief of Staff, Attorney General, Solicitor General. And then all our Judicial branch nominees, those happen very rarely, as he said they have really good job security. Will define the position that just needs to go before JEC. And ugh before...not before senate, it was actually...SenEx the option to send those position that are not defined in 406.1...ugh Senate Executive Board can send it to us. I think there is all...are there any questions, anything that I missed.

Ulloa: Just a question, as of now what positions would only go to JEC if you know.

Malanga: Or the coordinators or whatever they were chose to be called that year, it was unclear....ugh whether they were going to come before us. Now it’s a little more clear it’s defined.

Schiflit: The other thing that we vote to remove is lets say the Senate president or anyone else has...especially for those positions that may not needs to go through senate.

Rodri: Any other questions
Ulloa: Have you talked to the current president and possibly vice president.

Malanga: I believe that President Cocco.

Aziz: I mean I wrote the bill with like his amendments. What happened was last year we made these changes with ROPs....clarifies the standing position and judicial branch has to go through JEC and senate so it’s pretty much up to date. SO...yeah. Yeah pretty muchm

Miller: I yield my time to president Cocco for any comments.

Ulloa: Have you taken the look at this an....

Morgan: Sorry I missed that I was texting Gary.

Ulloa: In the past is this how the positions have been gone through.

Hasan: Except the directorial psotion....we were having this discussion in our committee...if SenEx wanted they cuoodl put it through senate.

Ulloa: Motion to enter second reading.

Rodri: Any objections to enter second reading.

Ulloa: Motion to disperse the second reading.

Rodri: Any objections to dispersing the second reading.

Johnson: Motion to move into voting procedures?

Rodri: Seeing none we will now enter voting procedrues. OR -002 excuse me. Okay click one if you vote yes, two if you vote no and three to abstain. Is that everyone, has everyone voted? With a vote of 23:0:1 SB S 55-002 passes. Okay moving down the agenda SBS 55-005 the last act. Do I see any motions?

Ulloa: I motion to enter.

ROdri: Any objections to entering the first reading of....

Aziz: Ready. So this is SB S 55-005. The Lakeland Access and Student Transition Act, it’s called the LAST Act. SO just to recapit what Lakeland...the local experience is. Couple years ago the legislature split off that campus and created a new university. TO do like a teach out where those students who are remaining to get their degrees or transfer to another university.

Rodri: Sorry.

Aziz: This legislation updates all of these items. To reflect the current needs and concerns of the Lakeland students. It doesn’t show the deleted stuff does it? SO the first thing is changing the lakeladn council to the department of student affairs. It’s basically just a room of soda, of hot coco and student computers. Pretty much two people to be in charge of that. For the purpose of organizing...some
examples of programming...so like 8 or so classrooms. Most of this is just changing the department....so another one is any member of the department of Lakeland affairs...so the committee felt like that was the best way to remove a member. At least once every two weeks. That gives ugh at least a mechanism. Since we don’t want to leave Lakeland in the dark. So before Lakeland use to submit an annual budget. So student body president should recommend...no later than the second week of the fall semester. And the department of Lakeland affair...so pretty much they have the summer for the Lakeland two people to make their interim budget and submit it to the President. That should be it.

Rodri: And any questions for MR. Aziz?

Aziz: this one is...last time we went to Lakeland....so there is no one working there so we need this to pass so they could have like a li..

Antar: Umm yeah so I just wanted to let you guys know that when we do a second reading....and that it needs to be passed sooner than later. So yeah that’s why we do that whole second reading dispersement. So pretty much for the amount of money left in Lakeland...so that’s what these two people are for. So couple questions.

Aziz: They have 7 people in the Lakeland campus. And these p....i would assume it would be either Lakeland or tampa. So it’s whatever the executive branch wants.

Johnson: WOul dyou like Lakeland to come to us or for us to go to Lakeland.

Coco: More looking at a mixture of both right now. So either the director would be from Lakeland or from tampa or vice versa. So we’ll see how the quality of candidates are and well go through the hiring process again and make our deciisions.

Ulloa: Motin to enter the second reading...right the second reading? SB S 55-005

Hassan: Motion to dissolve

Hassan: Motion to disperse second reading.

ROdri: Seeing none the second reading has been dispersed.

Malanga: Move to enter voting procedures.

ROdri: Seeing none we will now vote on this bill. Okay please click one if you vote yes, two if you vote now and three if you abstain. Mr. Romero, NAyone else? Has everyone voted? Okay. With a vote of 23:0:1 sb s 55-005 passes. Okay moving down the agenda. We’ll move onto fiscal legailation on first reading.

Rodriq: Somebody who hasn’t spoken today.

Senator Lansing:
Rodri: Any objections to entering the first reading of 55-002? Seeing none we will now enter the first reading. Do you want the presentation or?

Johnson: Yeah I'll take the presentation. Hey guys this is our first interim budget request presentation for the year. So this is going to be literally the 100th of the just kind of preface I've never done this before...so please do ask me lots of question make me think. So this is a learning process for us and for me. So first up. Our interim 150,000The first organization the bill that we went ahead and submit was sbs 55-002 Future Buseinss Leaders of America. These skills and tools...such as internships and teaching members professional skills...so umm basically to sum all that up they are a nationally recognized promotional group for students. They have student chapters...they requested $3,080 for food $3,670 for material and $6,750 was their total...but they are receiving almost $6k less. The biggest issues, three reason that we cut back on funds so much. So we went ahead and stuck with standards from last year...$2 per head ofr minor events...they did really overallocate for many of their material requests. So go into their events. The first even is the membership retreat that we did not fund whatsoever. It takes place over the summer...not accessible to the majority of the student organization. Fall interest dinner, students interested in joining the organization. An dprinted materials. Senator Romero Vice Chair...he pointed out that a standard that we used last year as far as utensils go...what you can instead do is allocate....so that’s the standard that we will be using with utensils. I don’t believe that we funded ...printing office downstairs. Next wevent is the Fall networking Mini Leadership Conference. Members compete by having interviewing competions resume building competitions...it was kind of you know do we want to have a...we deemed that...again utensils and decorations we knocked down...ugh yeah that’s...ummm the leadership conference we are not giving htem the study guides and sample test it’s a personalize things we cant fund that kind of thing. We’re not going to fund them for those things that I said. Spring Welcome Back Barbeque...professional development and leadership skill forum.... Umm it’s good but they keep asking for more/extra money for food. They also did ask for a $150 tablecloth...but that’s why their decorations...150 of that 180. End of the year banquet. But the last event was the professional attire nithgt. They hope that we would fund buying duites at Mens Warehous. While not explicitly against our students...in such a kind of backdoor approach. Suit A Bull which lets you borrow suites . So that’s the presentation, if you could pull up the Bill. So does anyone have any question at all about any of the appropriations.

Aziz: You mentioned about the fiscal year thing.

Johnson: every single....

Ulloa: Why is the start of the fiscal year.

Johnson: SO technically it goes into effect July 1st.

Malanga: $7 per person for food....

Johnson: So the purpose of the appropriations and audits committee is to subsidize not fund the events...we are not going to feed the mouths entirely ....so as a standard...the guildelines we cannot say
we can pay more $7 a head….or $3 per semester banquet…I believe one of the events was an end of the year banquet.

Malanga:Umm so $7 is the permanent limit…you cannot go above senate...

Johnson: It’s not just we, but these are apparently up to 10 years old. If I can just touch. So if you’re building food for 50

Hiba: HO wmuch does a banner typically cost.

Johnnson: IT depends on the banner. Each banner is typically unique in it’s own way. SO in one of their projects or events, they want to get…so that’s why we allocate $150 per banner.

Ulloa: We actually looked that up in Special funding committee last year…so it typically starts at $150 for a good abanner.

Schiflit: When I was reading through the requests …

Johnson: Right umm FBLA, for those of us in fraternities we receive pins you know as a sign of...so it could be construed that these could be returned...if they spent money on the pins and we audited them later and they didn’t have these items they could be in trouble.

Rodri: Any more questions...

MillerS: Just as a point of clarification 804.2.7.7. We may fund banners up to $200.

Ulloa: If there is no more questions for discussion I would like to move into voting.

Rodri: Well technically this is the first reading. Yeah I messed up. Okay please click one if you vote yes, two if you vote no and three to abstain. Has everyone voted? With a vote of 23:0:1 SB A 55-002 passes.

Aziz: So this joint adhoc on the election process is collaborative with the three branches and along with our director Gary Manka…and all the people involved like SGATO the dean for students the Court...kind of get a whole look of it and evaluate it and really make recomendations. First part is everyone do their research read title 7....second part and then the third part will be making the amendment..the vision is for use ot meet afte4r...probably the end of the week....so any questions about it before we start?

Hiba: How much time in terms of hours a week....

Aziz: probabilky given the history of this committee it would be probably long. So the expectation is it will be a thorough committee each one.

Glock:

Aziz: Soon as we have all the senator...we’ll be meeting throughout summer and the fall semester... so that’s he end result of the senate. And whatever the results are we will have enough time to debate it.

Rodri: Would anyone like to make some nominations..
Miller: Malanga

Malang: Yes

Ulloa: I nominate senator Miller

Miller: I Accept.

Gluck: I would like to nominate myself. And I accept.

Seitz: I accept.

Hassan: I accept

Johnson: I would like to nominate Senator Madden.

Madden: I Respectfully decline.

Miller

Ulloa: I nominate Senator Romeor.

Romero: I respectfully decline.

Aziz: I would like to nominate Mr. Schilfit.

Chiflit: I Accept.

Miller: Motion to close nominations.

Rodri: Any objections to close the nominations? Seeing none we will now close nominations and move into presentations. Okay so we will go in order of nominations. Malanga

Malanga: alright so you guys have got to be tired of hearing my voice at this point...ugh I want to start off by telling you a little bit about myself. Serving on the rules committee.i think it's important for a couple of reasons...umm I’m hoping to get my cpa and hopefully be able to use that and bridge the gap. I’m involved across campus at a variety of different things. I really apologize that. I’m also in the business honors program. uMm I think we all saw this year that there are any number of problems with the process...the first thing I would like to say is I want to get back with the basics of title 7. And to make sure that the process runs smoothly everyone is well formed. I think it should be a lot more clearer. I would also like to change the rule of the ERC. IN the US we have what we call adversarial process. and then we have a judge that’s separate from those that really decides that matter. I really like this quote: President Wilson. Umm I’m on the rules Committee I can be a great liaison...umm that will have to go before the rules committee first...and umm here...so I hope you will choose me to be on the committee.

Rodri: You have 3 minutes to speak.
Miller: Umm so my interest for this ad-hoc committee is to actually work with the biggest faces with SG. I have gotten familiar with title 7. I have also studied...i honestly feel that I ouwld be a beneficial part to this ad-hoc committee. That would be all.

Gluck: Well I want to introduce myself. I’m John Gluck. And I would like to be on this ad-hoc committee. I just took the LSATS yesterday and I’m planning to apply for Law School. I have a free schedule now besides my commitments. And IFC only meets once a week...and fall my schedule is one honors course and thesis.

Seitz: I’ll keep it brief. I’m actually a first semester senator right now so I’m still relatively new. There was definitely allot of miscommunication and things that could have done to make things avoided.

Hasan: Good afternoon Senate today I’m going to be..i’m a new senator for the 55th term. Currently the ... I have tried to be...I’ve took like special tasks from Christ...and knowing how convoluted the election process was this year...we could look up to a constitution and saying that there is nothing going on ...llike back in the ERC hearing I remember ...and there was a lot going on about that. So making the process...through which the election process...and I think being in the ad-hoc committee for title 7 for considerable amount of times to ...so thank you.

Schiflit:HI guys, most of you know me. I’m a computer science major and a....umm as a result. Ugh there should be no ambiguity in our standard operating procedures. So when we do go to amend them they reflect that. And next year from here on out there is nothing that....umm beyond that I was involved in SG in high school. As for my committeements...I do work for the university...I think that my experience along with my ...like I said I’m very passionate so we make sure that we do not have...

Johnson: I move to enter voting procedures. ...oh sorry I rescind that.

Ulloa

Rodri: seeing noe. If you could stand in order. Malanga Miller, gluk size....And senator Ulloa.

Aziz: What sents you apart from any other candiade for this position of the committee.

Malanga: I have already read

Miller: ever since I got into SG I’ve been trying to gain as much knowledge as possible...and I believe through that information I have absorbed.

Gluck: I feel like mine would be as using the law and logic in my uniqueness. I would use my knowledge with that to change the rules here.

Seitz: SO I feel like I can bring a really new prospective on some ideas that I have.

Hasan: IN my few days here...and I’ve tried and most important ....i believe I bring in a new perspective in a way was to bring in logic.
Schiflit: shows my aptitude for a very concise and technical...it's very understandable and there is no room for misinterpretation.

Turong: What do you believe is the single most important change

Schiflit: ugh so at least what I look for is making

Hasan: When a grievance is filed there is no question as to whether that is a grievance...new concepts...which messed up the election process this term. And to make sure the process is balanced out.

Seitz: Better communicate our Rops and make them more specific.

Gluck: More so it needs to be changed. Obviously they are hard to follow because it was more precise. There are silly rules that needs to be done.

Miller: First off I was going to say that there were way too many allegations. Like giving them to the Judicial branch and SGATO

Malanga: SO as I mentioned earlier I think that the lack of a...I also think the problem is with the ERC...

Johnson: I yield my time to predient coco.

Cocco: So how would you define a celebrity. So in terms of the election process what do you feel the student body needs to know about the election process.

Malanga:

Miller: My opinion is that there should be more marketing for the elections, because it is my understanding that somewhere about $5k and $6k voted....

Gluck: They would have to be influential on people...and to get people more aware....

Seitz: Most important thing is to educate the students on the ROPs they might not want to read through all 25 pages.

Hasan: Umm moving..honestly when the election when the training was going on...aside that the student body should know about the platforms....more about what they stand for and what they can do

Schiflit: I don't believe....as for what the ERC could improve is provide a forum for them. NO one knew if these are actual

Ulloa: how close did you guys follow the elections and all of the grievances this year.

Schiflit: UMM on the SG webpage. SO very closes or dailty would be the best way to put it.

Hassan: I read the oracle every morning...oh they are talking about this and they.....hearing where they were.
Seitz: Interested in seeing who would be the next leader of the student body. Umm and students really didn’t understand what was going on.

Gluck: When I ran for senate I was very informative and I questioned people who knew the rules. And also I read the oracle everytime a grievance was published.

Miller: That was one of the lead ...I read all of the 17 allegations was it and I was also very interested in joining student government.

Malanga: What was disheartening is that we go the news from the Oracle...we were called the house of cards organizations.

Johnson: I move to end the question answer period and move on to a 10 minute moderated caucus with one minute speaking time.

Rodri: senator johnson since you made the motion you have the floor.

Aziz: Discussion...i mean...go ahead.

Johnson: I move to have a 10minute moderated caucus with...I make a motion to end the discussion period. I make a motion for a 10 minute moderated

Rodri: SO just for clarification 1 minute speaking....

Aziz:

Rodri:

Johnson: yes 10 minute

Rodri: Any objections seeing none we are back to where we...we will just vote on one seat at a time. And we will vote until someone has a clear majority and then we will do the same...

Malanga: He seems to be the ...Seitz very well both her new approach being a new senator I think is going to be important.I SO I would personally ...the other senator you know Senator Hasan she is a really dedicated person. I’m afraid she is a little....Schiflit....

Ulloa: umm I personally really agree with him for the candidates. Mr. Malanga came up he had his presentation ready. Umm senator Seitz she really spoke passionately of how different aspects she wants to change. And the last thing was Schiflit the way he said it he was very simple...everybody could read, there is no arguing about what the rules actually say.

Hiba: I would have to agree about the various other speakers...when you cde you have to make everything precise...and based on his experience I think that would contribute a lot to the team.
Aziz: So in terms of logic and critical thinking I guess the candidates that stod out were Mr. Malanga for me, and also Mr. Schiflit and also umm the other perspective is through Mr. Gluck, law is also his major...

ROdri:

Sanchez: I like to say I nominated Senator Seitz she would really be good for this position. I had a class with Senator Schiflit he knows what he’s doing. And I believe senator Malanga, since she is already in the Rules Committee..

Truong: So first need I say more about Senator Malanga, I agree with what everyone else said about him. And why I really like the most about her she wants to be proactive rather than reactive with everything in the elections.

Ulloa: If there is no more discussion I would like to move into voting.

Rodri: Like I said we would vote per seat...so you're pretty much voting on the best person three times, if that makes any sense. Give me one second to type everyone’s name. So just as clarification click one for malanga, 2 for miller ...I didn’t put an abstention but I verbally abstain. Has everyone put in their votes?

10 Malanga: 0 Miller: 1 Seitz: 2 Hassan: ...what was the number needed for...

Ulloa: I would like to restabliksh quorum because we are all not voting.

Rodri: Please click one if you’re present. We currently have 17 people in the room. Which means you will need a vote of 9 people in order to have a majority.

Ulloa: Do we have to revote on that one?

Rodri: Yes you do. So the runoff is between Malanga, Hassan and Chiflit. Has everyone clicked in? with a vote of 13;1:2 and one abstention senator Malanga is the first senator on the Ad-Hoc. We will now vote on the remaining senators. Okay please click one to vote for Senator Miller, 2 for Cluck, 3 for Seitz, 4 for hasan and 5 for schiflit. Has everyone voted? I’ll take that as a yes. Okay we are now in a run off between senator gluck and senator Seitz. Okay please click one for senator gluck, two for senator seitz and three to abstain. Has everyone voted? With a vote of 10:6:1 senator gluck is now in seat 2. And now we will vote on the last seat. Okay please click one for setiz two for hassan three for schiflit and four to abstain.

Ulloa: are we not putting Miller into this.

Rodri: OH I made a mistake. Thank you for pointing that out cory. Okay once again, one for seitz two for hassan three for schiflit four for miller and five to abstain. With a vote of 9:2:5:0:1 the third seat is Emily Seitz. I will go ahead to let them in and announce.
Rodri: SO the three senators that have been chosen. For the ad-hoc process is senator malanga, gluc and seitz.

Rodri: Okay moving onto the agenda. Announcements....umm thank you all for participaitng with the orientation ....ugh I want to give a shoutout for our graduate profesisional councel representative. Shoutout to our...as always. If you guys every have any questions process.

Johnson: Also make a couple shoutouts. So inside my committee part of doing my job...so just so everyone know senator sanchez: Senator Sanchez will also...hasan vietnamees student association. And ugh senator miller is also working with the ....

Rodri: Really quickly I have 2 announcements. The next senate meeting June 24th. Antoher thing is congradulations for everyone that is on the ad-hoc. July 8th no senate meeting....well thank you for clarifying that. So just kidding .

Aziz: So if you want to be Sargeant in Arms be in charge of clicker...andy is waiting chekcin his inbox. Other than that all the committes are doing very well.

Rodri: Moving on any more announcements. Moving on we will do final roll call. Everyone get your clickers out. Please click one if you are present. Okay we have 22 people

Johnson: I move to adjourn.

 Adjourn: 9:35pm
