Volume 46 (3), September 2017

Original papers

Monika Balogová, Dušan Jelić, Michaela Kyselová, and Marcel Uhrin

Subterranean systems provide a suitable overwintering habitat for Salamandra salamandra321-329

María del Pilar Aliaga-Campuzano, Rafael López-Martínez, Pablo Dávila-Harris, Ramón Espinasa-Pereña, Adriana Espino del Castillo, and J. P. Bernal

Timing of speleogenesis of Las Karmidas Cave (Mexico): first description of pseudokarst developed in ignimbrite331-343

Marek Lang, Jiří Faimon, and Sandra Kejíková

The impact of door opening on CO₂ levels: A case study from the Balcarka Cave (Moravian Karst, Czech Republic).....345-358

Peter Kozel, Tanja Pipan, Nina Šajna, Slavko Polak, and Tone Novak

Mitigating the conflict between pitfall-trap sampling and conservation of terrestrial subterranean communities in caves.....359-368

Erika L.S. Taylor, Gabriella F. Ferreira, Gustavo J.C. de Freitas, Rodrigo L. Ferreira, Daniel de Assis Santos, and Maria A. de Resende-Stoianoff

Screening of antifungal susceptibility in cave-dwelling aspergilli and report of an amphotericin B-resistant Aspergillus flavus369-378

Julien Louys, Shimona Kealy, Sue O'Connor, Gilbert J. Price, Stuart Hawkins, Ken Aplin, Yan Rizal, Jahdi Zaim, Mahrta, Daud A. Tanudirjo, Wahyu Dwijo Santoso, Ati Rati Hidayah, Agus Trihascaryo, Rachel Wood, Joseph Bevitt, and Tara Clark

Differential preservation of vertebrates in Southeast Asian caves.....379-408

Jacquelyn N. Cresswell, Peter J. van Hengstum, Thomas M. Iliffe, Bruce E. Williams, and Gil Nolan

Anthropogenic infilling of a Bermudian sinkhole and its impact on sedimentation and benthic foraminifera in the adjacent anchialine cave environment.....409-425

Stefano Mammola

Modelling the future spread of native and alien congeneric species in subterranean habitats — the case of Meta cave-dwelling spiders in Great Britain.....427-437

Kaj E. Williams, Timothy N. Titus, Chris H. Okubo, and Glen E. Cushing

Martian cave air-movement via Helmholtz resonance439-444

Mahmoud Abirifard, Ezzat Raeisi, Mehdi Zarei, Mohammad Zare, Michal Filippi, Jiří Bruthans, and Christopher J. Talbot

Jahani Salt Diapir, Iran: hydrogeology, karst features and effect on surroundings environment.....445-457

Announcement

Arrigo Cigna and Paolo Forti

Giovanni Badino (1953-2017)459-460
