UNIVERSITY OF SOUTH FLORIDA STUDENTS TO APPEAR ON 'PROSPECTIVE' SUNDAY

The head coach of the PAL Spartans of Belmont Heights said this week that he is unhappy with the disqualifying of black teams for the Eastern Division Championship for the second straight year.

The coach, Horace (Monte) Edmonds, said his team has been practicing and playing hard all season getting ready for the championship only to be informed by Leslie Pascoe, PAL Commissioner, that the Spartans with a 6-1 record, were not eligible for the crown.

Edmonds claimed that Pascoe charged he had five ineligible players on the team because there were no registration slips on either of the five boys. "But the boys were registered at the beginning of the season," claimed Edmonds.

Edmonds continued, "I have talked with my lawyer;" he said and he informed me if their parents verify the boys were registered, we would retain the championship they won on the field."

Edmonds concluded, "Why weren't the other two players disqualified?" according to Edmonds. Corporal Lawrence Seigel, director of the PAL, told a Sentinel-Bulletin newsmen that the only reason the Spartans were not awarded the Eastern Division Championship was because of a clear violation of rules.

The PAL Commission started a check on all the teams after it was learned that a boy over age was playing for the Yellow Jackets. The PAL Commissioner said he was unable to give the team a championship without the other two players disqualified.

Sheriff's Community Relations Bureau

By DETECTIVE ANNETTE MYERS

"DO YOU KNOW?"

Never in our country's history has the law enforcement officer's job been so difficult. Turmoil has definitely been a word that has had a place in our vocabulary, and now a word that will be heard in our headlines reading "Lawmen Murdered." 

Within the last year, an uncounted number of officers have been assaulted, numerous lawmen have been shot, but as a result of all this, in the days of old but more often than not in a ambush when answering a call for help. 

Our society today is in a hole that includes our law enforcement officers - have reasons to be apprehensive. Evidence shows that crime in the past several years has taken an upsurge. 

The fact that it has been increasing at a rate faster than the rate of our population growth, our population growth in top per cent, while crime has increased by 41 per cent, and still climbing. 

Within the last year, 13,000 teenage girls gave birth to illegitimate children. This also, one boy in six was arrested before reaching 15 years of age. 

Every seven seconds a major crime will be committed... every nine seconds an innocent man, woman or child will be murdered... that every three minutes a police officer will become the victim of a assault... also, that every three hours a police officer will be raped. 

Sheriff Beard pointed out that such crimes as murder, rape, and robbery might attract the attention of the public more than other crimes of less sensationalism, such as burglary. However, this offense is committed probably with much frequency than any other one offense and also with a greater cost to the tax-paying citizens. sheriff Beard stated that three out of four burglaries are committed against buildings that have either no lights or inadequate lighting. But the big belief is that an adequate alarm system gives constant protection to commercial institutions, but even with the alarm system, the safe guards are necessary. Sheriff Beard concluded by saying:

"In the burglary case, it is the burglar who does occur, after discovery, notify your local sheriff immediately. The owner should inform his local authority and co-work to leave the scene completely undisturbed and intact. Avoid all possible entries and exit at once."

The Sheriff's department is working to protect our homes, businesses, and streets.

Company Awards $12-Million Policy To Black-Managed Insurance Co.

LOS ANGELES — Atlantic Richfield Company has awarded a group life reinsurance policy totaling $12 million to Black-owned Golden State Mutual and Western Area general manager, announced here this week.

Cook said the action was in line with Atlantic Richfield’s policy of encouraging economic growth in minority businesses and communities throughout the country. Earlier this year, Atlantic Richfield announced it would deposit $1 million in minority-owned businesses.

In addition to the policies, the firm will also deposit $1 million in minority-owned businesses.

Welfare Cuts Force 84,000 From Rolls

WASHINGTON — Cutbacks resulting from extraordinary cost increases resulted in a net total of 84,000 Americans being dropped from state welfare roles in July, according to the Department of Health, Education and Welfare reported Friday.

It was the third straight month that declines in welfare enrollment exceeded additions, compared to an average monthly increase of about 3 percent earlier in the year. Hardest hit by the cuts were the elderly and needy families headed by women. Twenty states and District of Columbia dropped 70,000 mothers and children under the program of aid to dependent children, and 39 states reported welfare rolls 11,000 persons.

Some of the states also reduced welfare payment levels. The deep would have even greater had not 34 states and territories increased their welfare rolls.

Several factors appear to be contributing to the apparent leveling off of the welfare rolls, an HEW spokesman said, “the most notable being the recent efforts of states to cut back on payments and recipients because of the extraordinary costs in the past year.”

In New Jersey, which dropped 101,000 recipients in July, 2,290, California dropped 6,800; Oregon 6,200; New York 2,500; Kansas 1,200; Nevada 2,200, and Washington 3,400.

States receive federal funds for all welfare programs except general assistance are asked to submit monthly spending reports to HEW.

Jackets, it was then that they discovered the five boys were playing without helmets. Those players are, Carl Peterson, James Woodall, Robert Brown, Curtis Everhart, and Fred Davis.

Seigel said, “I would say that Edwards is a good coach, but coaching is a full time job and if he has to keep up with the administrative work some is lacking.” At the beginning of the season all teams were supposed to send a representative to the meeting of the commission, he said. “During the first three months Davis Peop- le and Samuel Childs were to represent the Spartans but neither showed up.”

This could be stemming from another incident involving Davis People, who伦n a team that violated rules last year. The coach of the commission is not prejudiced in any way. The sharpest cuts were in the state of Nevada.

Survival Of Poor

A saucering pattern of hostility to the people on public dole has been emerging with increasing frequency in major urban centers where slums and poverty are at their markt.

The hostility may be attributed to two, basic assumptions, both of which are false. The one most often heard is that people on public dole are a burden to society. The other is that, caught in the repeated cycle of poverty, people will never again rise above their economic condition. There are endless examples of the struggle for survival. Indeed, Christianity way of effecting reduction of taxes.

True, the welfare program is supported by taxes. But it is such a relatively small percentage of the individual's income that goes for welfare in that no sense can it be considered a disabling sacrifice.

The point to bear in mind is that but for the dole system, a repressive social system in which society would be in a pitiful condition.

GREETINGS
I would like to send my warmest greetings to my fellow Tigers and each and everyone of you.

STUDENT IN SPOTLIGHT
Student in spotlight is no one but the cool, groovy, and crazy Dirk Twine. Dirk’s classifications for this school term is a mighty fighting sophomore. Zion Missionary Baptist Church where the Rev. B. J. Jones is the pastor. Among Dirk’s favorites are the following: main chick, someone special; food, anything edible; hit, It’s a Thin Line Between Love and Hate; group, the J-J; hobbies, playing football and basketball; teacher, Cox, J. J. Fernandez; best friends, all the fighting brothers at Jesuit. After graduation Dirk would like to continue his education at an undecided university. Congratulations Dirk for being chosen to be student in spotlight.

CAMPUS NEWS
The Tiger football team and band is inviting everyone to come out tonight, November 15, to see them in action against the Tampa Catholic Crusaders at the Leto High School football field. The student body of Jesuit would like to congratulate the Marquesa Club for making a tremendous presentation on Tuesday, Wednesday and Thursday. And now it's the Cubs who will win the National League's Cy Young Award just as Roberto Clemente of the Pirates did in the World Series. And now it is the Cubs who will have to pay.

Fergie has set his sights on a 1972 salary of "more than $100,000," which would make him the highest paid Cub in history. Billy Williams currently holds that distinction with a contract of $150,000 and I never told anyone that.

"I feel that I'm just as good as any of the rest of the top pitchers in the league—Juan Marichal, Bob Gibson and Tom Seaver," said Jenkins. "Maybe I live a little slower than those other guys and for that reason don't get the attention.

"Winning the Cy Young Award is like having a big star up there beside my name. It's definitely a mark of distinction that should earn some respect." Jenkins believes that a big reason for his being overlooked as a Cy Young winner this year was his contract negotiations. And this has bugged Fergie.

"The Cubs had flown him in from his home in Chatham, Ont., for the Cy Young announcement. "I wasn't too confident about $100,000 and I don't think I'll have any trouble getting it. But it will all be worked out in December or early January by my two attorneys from Montreal, Larry Sazant and David Schativa. They'll be in Chicago in December or early January for the contract negotiations.

"Really, I don't anticipate any difficulty. After all, I was pretty close to that $100,000 figure this year (estimated $90,000) and I believe I had my greatest season. Anyway, I don't have to pay. But it will all be worked out in December or early January."

"Where he helped me technically was in reducing my big windup. He cut it way down. And he also got me, as well as the other pitchers, studying movies made of us in action. It's amazing how you can pick up your mistakes and correct them more easily."

Jenkins finally revealed what objectives for the season he had written in the sealed envelope he had taped to the bottom of his locker shelf, but winning the Cy Young Award was not one of them.

"What we need is about five guys who can each steal 20 bases," said Fergie. "Well, two or three anyhow. Our club is badly in need of some speed. We have home-run power and everything else but we don't have guys who can run. From the seventh inning on, we have a tough time scoring.

"The objectives were a 26-9 record, stay healthy, don't get too close to that $100,000 figure this year (estimated $90,000) and I believe I had my greatest season. Anyway, I don't have to pay. But it will all be worked out in December or early January."

FORMER BLAKE STARS ON ROBINSON TEAM

Black Athletes Play Major Roles On Top High School Teams

By BILLY DAWKINS

With the 1971 high school football season coming to a close, the top players have left their marks on the local gridiron. When the ratings were made earlier this year, it was believed that Middleton and Blake would be phased out as senior high schools everyone was wondering what would happen, with the two schools from these two black schools. Blake, with only one loss last year, had a host of talent coming back. The Yellow Jackets never seemed to run out. Mr. John Robinson could not compete and Blake would be the team to beat. Their talent and have proven to be all the time that all they wanted was others.

The Yellow Jackets never seemed to run out of good talent at the West Tampa school. Middleton, which went to the Western Conference and won unbeaten 1970 for the first time in history, had more letterman coming back than any other school in the city. Some believed the Tigers had the better football team in the state last year and was figured to be even better this year.

Robinson, Hillborough and Leto received the bulk of the black talent and have proven to be the top high school teams in the city. Hillborough, with the addition of former West Tampa running backs Gray Douglas, Ruben Walker, and other black teams, has another group of young players in the state. Leto also gained some talent with their move to the city. Robinson has also moved up a high school. The addition of running backs Alfredd Pyles, Stanley Bowers, and others has improved their record considerably this year, according to this year's disappointing record.

Robinson, who some believed to be the best in the state, has most of the Yellow

Jacket stars of last year with the likes of Richard Overstreet, Gerald Thomas,Johnny Williams, Michael Nunn, and Ivory Solomon, has put together a devastating offense and a powerful defense, taking the Black Knights with victories over Hillborough and 2 over Leto and Blake, have their eyes on the conference, district and state titles. Robinson, With Overstreet and Running back at running back, has ripped the opposition for over 100 yards per game per outing.

The Tarriers also have a great ground game with Redd the lead rushing rusher, The Leto Falcons, with Alfred Pyles playing a duel role at quarterback and halfback, could be undated by two losses to Hillborough and King and a tie to Robinson all by one point.

Some years back, some were saying that Middleton or Northside were going to be the choice of schools to win the biggest games in the city. That idea has started to fade as the Black Knights are right back in the limelight of black high school football.
